Dear Zain

I would be okay with you to develop this app! It is exciting. Will you share the final product with us pls and demo it for me if possible? I would like to take the idea further if possible.

Thx

Hamida

MAM Zulfiqar,

Sounds very interesting and exciting!

I will let Hamida respond as this falls under her

Regards

Shemina

YAM,

Thank you for the response!

Right now, I can only create it for Android, as that is what I had specialized in for school. Definitely during the March breaks or anytime in the future when I have less school work, I don't mind learning the iPhone language to replicate it for Apple devices.

Do you have any requests of how you want the app to look like? I have attached screenshots of the rough structure of the application right now.

For school related things, who should I get to sign the forms? They are required to make sure that my client is not fake and I am actually working with them.

Thank you so much for letting me do this! I thought it would be a great opportunity to combine what I have learned in school for the benefit of khane.

Thanks,  
Zain Zulfiqar

Hi Zain

This looks good. I like the look of it.

Consider looking at the weekly electronic Alakhbar that you get via email to also replicate the look and feel. Are you signed up for the electronic alakhbar newsletter? Currently you can see the electronic alakhbar on your iphone. So, please sign up for the eaa. You need to go to [iicanada.org](http://iicanada.org) - please scroll to the bottom of the page - you can sign up for the alakhbar newsletter there. I believe that you can see the eaa on your phone. So android application would be a good next step. However, it would be great to learn something from your project on how we can make better tweaks etc. to the system.

Also, in the electronic Alakhbar, we have three main sections: 1) Quote of the week; 2) Events; 2) Information Items. So you can consider adding that in.

For sign offs, since I am not physically at the Council offices, you can have Saleem or Shemina, copied on this email sign off documents for your school work.

I am copying them on this email. This way you can coordinate to come into the council office to get any sign offs done.

Thx  
Hamida
